Swanson Appointed Chancellor

Robert S. Swanson, dean of the Graduate College at Stout, has been named the university's new chancellor. Swanson, 47, succeeds William J. Micheels who stepped down as the university's chief administrative officer earlier this year for reasons of health. Ralph G. Iverson, who served as acting chancellor, has now returned to his position as assistant chancellor for Student Services.

Swanson received his Bachelor's and Master's degrees from Stout in 1949 and 1950, and his Doctorate from the University of Minnesota in 1955. He has been on the staff since his undergraduate days.

A native of Minnesota, Swanson moved from the position as part-time instructor to various posts at Stout. He served as chairman of the Department of Wood Technics, assistant dean and dean of the School of Applied Science and Technology, director of the Summer Session and, from 1966, dean of the Graduate College.

Under his leadership, the Graduate College tripled its enrollment and doubled the number of degree programs offered.

Swanson is married to the former Margaret Pennington and they have four children: Ronald 22, Steven 20, Marcia 17, and Curtis 7.

A recognized leader in his field, Swanson has been cited numerous times for his professional contributions. He is an examiner-consultant for the North Central Association and is the author of a variety of articles and publications.

Swanson is a many-sided individual. He feels a strong commitment to the community. He served as chairman of the Menomonie School Board for 10 years, including two years as its president. He was the first chairman of the Board of Control of Co-operative Service Agency (CESA) No. 5. He has been active in scouting since his boyhood, receiving the Silver Beaver in 1961 for his contributions.

Swanson and his wife live in a home that he built. He still maintains his journeyman carpenter card. He worked at that trade while going through high school and college.

The announcement of Swanson's appointment comes as the *Alumnus* is going to press. An in-depth report on him will appear in the next edition.

This artist's rendering shows Stout's new \$3.5 million Home Economics building, currently under construction. The building, scheduled for occupancy in mid 1973, will house most of the programs in the university's School of Home Economics. The archi-

tectural work for the building is being handled by Carl Schubert & Associates, La Crosse; the general contractor is Sheehy Construction Company, St. Paul.

A table in the Student Union often provides a work area for Robert Hoyt, a staff member of Stout's Counseling Center. He feels that maintaining a close contact with students is an essential part of his job.

A Place to Turn for Help

The University Counseling Center at Stout Helps Students with Problems Ranging from Poor Study Habits to Severe Depression

Mary is an unusually bright student, but her academic progress was threatened by her inability to stand before a group of people to speak . . . Chuck, who described himself as a "loner," was unhappy, nervous, perplexed, and became tense when he was around people . . . Ron, an industrial education major, had uneasy feelings about the prospect of becoming a teacher. While these names are fictitious, the individuals and their problems are very real. Their cases typify the numerous problems handled by staff members at Stout's Counseling Center; a place where students can seek help on matters that are troubling them. But the Center is more than just a place to take problems. It is an office concerned with the personal growth of all students on campus.

Started in 1963 with one person, the Center now has five professional staff members, plus two graduate assistants. It provides a variety of services for both groups and individuals, ranging from problem solving to simply developing a better understanding of one's self.

Dave McNaughton, Center director, said that while the university had an enrollment increase of 3.5 percent last year, the number of students using the Counseling Center increased 39 percent. In addition, the number of appointments made at the Center doubled. "In a way this represents the feeling by the student that his formal college education is not necessarily limited to the classroom experience," McNaughton said. "The student is interested in his personal growth; finding how to deal with himself

and with others." For example, McNaughton explained that many students come to the Counseling Center for group sessions in which they learn how to better relate to others. Three hundred students took part in personal development groups last year. "The major thrust of these sessions is understanding one's self and others and learning through that interaction," he said. The groups may consist of fraternities or sororities which are having organizational difficulties and wish to improve their ability to get along with each other; or they may be groups initiated by the Center itself.

McNaughton said the Center works in three basic areas of student counseling: personal-social problems; educational growth; and vocational development.

Chuck, a 21-year-old junior majoring in psychology, complained of being unhappy, nervous, perplexed, and of becoming tense when he was around people. As he talked to the counselor there was a quaver in his voice, some jitteriness in his hands and he seemed as if he were ready to burst into tears. He told of having very few friends and of getting very little excitement from life. He referred to himself as a "loner."

Indicating that his most severe problems involved his self-doubt, he said he was anxious about certain events and situations. He worried that he might not be suited for the field he was in and complained of difficulty trusting people.

Chuck explained that he was having problems

sleeping at night, slept through many of his morning classes and was unable to learn efficiently because he couldn't concentrate on his school work. He wasn't sure how well he was doing in any of his classes and was becoming concerned because he didn't really care.

About 40 percent of the counseling done at the Center relates to personal-social problems such as this. Other typical problems include roommate difficulties, reactions to academic failure, dating problems, pregnancies, inability to get along with parents, and a growing concern for interpersonal situations in general. "Many people who come here are afraid to relate to other people openly," McNaughton said. "This is a broad problem which affects a wide range of interpersonal situations, such as ability to meet members of the opposite sex or fear of instructors in a classroom." He added that this type of self-doubt is a frequent cause of the relationship problems which arise in residence halls and with roommates.

A more serious but far less frequent problem handled by the Center is suicide. According to national statistics, a university the size of Stout averages about 1.5 suicides each year, but none has been officially recorded here since 1964. There have, however, been about 30 attempted suicides each year for the past several years. "Most of these are suicidal gestures and represent a cry for help," McNaughton explained. For example, a girl may take 50 aspirin but make sure her roommate knows she has taken them so that she can get help, and perhaps get someone to listen to her problem. "This goes along with being afraid to relate to other people," McNaughton said. "Suicidal thinking is frequently a result of interpersonal loneliness, failure, and frustration. There is a general feeling of lack of self-worth. Many young people have grown up in a society without having the opportunity to do things which help them to feel worthwhile."

Although suicide talk may be common, McNaughton still regards it as very serious. Ordinarily, if a student is threatening suicide the Center is notified.

"Within a week's time, at least one staff member from the Counseling Center is called out of bed late in the evening or early morning hours to assist a student with serious problems," McNaughton said. "These almost always involve a serious depression situation, suicide threat or attempt." He added that personnel at the Center are on duty 24 hours a day, seven days a week to serve the university community.

Robert Hoyt, a member of the counseling staff, said a student's ability to deal with his personal problems is probably as important as his ability to deal with tests and textbooks. "Some people don't have it intellectually to make it at Stout," Hoyt said. "But some people do have it intellectually and can't make it because of various kinds of emotional or personal hindrances." He added that there is a danger overlooking this factor in examining a student's problem with school. "Everyone understands the student in the hospital with mononucleosis can't continue his learning process," Hoyt said. "But a student that is in school under parental pressure or who has had a tragedy at home is just as hindered."

While the Center deals extensively with personal problems which may have an indirect effect on a student's achievement in school, it also works directly in areas that affect academic achievement.

Mary was a freshman when she was first faced with the prospect of standing up to address her fellow students in a speech class. Always somewhat shy, Mary discovered trying to give a speech was almost more than she could take. With trembling voice and shaking hands she began her speech, but found that as she continued she actually became physically ill, having to stop her speech because of a fear of fainting. Later speech classes brought no improvement and Mary found her feelings of anxiety getting progressively worse.

Mary's difficulty exemplifies the educational problems handled at the Center. Although it is rather common for people to be nervous during their first speech, anxiety as strong as Mary's — in which an

Dave McNaughton, director of the Counseling Center, chats with a student in the Center's north campus branch office.

individual becomes physically ill — is rare. By seeking help at the Counseling Center, Mary was exposed to some recently developed procedures which have generally proved effective in helping people reduce anxieties over situations such as giving speeches. Following referral to the Center, Mary was given testing and counseling. Within six weeks, Mary found her anxieties about speech-giving disappearing. Eventually, she was able to return to the speech classroom where she was able to display, through her speeches, her ability to think creatively.

Aside from personal and educational problems, one of the most rapidly expanding aspects of the Center is the area of vocational counseling. "There has been a dramatic increase in the past year in concern for employment upon leaving Stout," McNaughton said. He explained that in this area students are often given interest inventories to discover the types of activities they would be most interested in doing. "The interest testing, of course, will not say that a student can succeed at a particular job; it merely outlines areas which a student is likely to find interesting and satisfying," McNaughton stated. He pointed out that many students enter college under peer and family pressures when in reality they would be better served by a technical school or community college. "We may talk about what an individual wants and what he is most capable of doing; we may give interest tests; we try to help the individual learn about himself," McNaughton said. The Counseling Center also maintains a vocational information library which students may use to research and evaluate potential job opportunities. "Students are increasingly concerned about how they can fulfill themselves through their work," McNaughton stated. "Two or three years ago most of our work was with personal and social problems. Now, many students are coming to us with career planning and vocational choice problems." He added that the present state of the economy may be one factor causing this trend, but noted that many students are also concerned about looking to jobs as a source of self-fulfillment.

Ron, a second semester sophomore, had initially enrolled at Stout as an industrial education major. His father was a high school teacher and had strongly influenced his decision. However, Ron explained to his counselor that he was beginning to feel uneasy about the prospects of becoming a teacher. He hadn't been doing well academically, especially in the social science and English classes, although his grades in technical laboratory courses were excellent. He wondered if he shouldn't think of transferring to an industrial technology major which he felt would be more satisfactory. He even questioned whether he wanted a college degree at all. And yet he felt guilty about having thoughts of leaving his teacher education program because he knew how disappointed his father would be.

McNaughton noted that problems such as these

and those relating to adjustment at college are frequently experienced by students who visit the Center. "It is sometimes difficult for a student coming out of a highly structured high school setting to adjust to the university situation," McNaughton said. In addition to personal counseling, the Center uses other methods of tackling this problem such as providing a study skill class conducted each semester. "The class deals with reading comprehension skills, note taking, taking examinations and how to schedule study time," McNaughton said. "In other words, how to be personally organized in doing your job as a student."

While the Counseling Center will continue as an important problem-solving source for many students, its services more broadly encompass all aspects of university life. McNaughton described the Center as "an arm of the university that knows, studies, and does research on students and gives feedback to the academic areas and administration." Hoyt described himself as being partly an "information specialist."

Members of the Counseling Center staff serve on student and faculty committees as advisors, consultants, and voting members to provide input in a variety of areas. They may also be called upon occasionally to settle differences between individuals or segments of the university community.

McNaughton conducts one of numerous group sessions put on each year by the Counseling Center. The group sessions are used for a variety of purposes such as personal development, as well as problem solving.

Two Northern Rivers: How Important Are They?

A Group of Stout Students Spend Their
Summer Studying the Effect Two Rivers Have on
Northern Wisconsin Residents

A group of Stout students took charge of their own education and learned more about the environment of two northwestern Wisconsin river basins last summer under a grant funded by the National Science Foundation. The \$9400 grant financed a study of the economic, social and political impact of the Red Cedar and Hay Rivers in their respected basin areas.

According to project director Mark Burwell, the purpose of the activity was twofold: It was designed to collect data that could be used by state and local agencies, but it also allowed participants to take charge of their own education as they develop research and sampling techniques.

Burwell, a Madison senior, called the project a type of independent study that shows students can "really deal with responsibilities."

The students have traveled more than 5,000 miles, taking water samples, observing conditions, and interviewing people.

On the scientific aspect of the project, students collected water samples along various parts of the rivers. The samples were brought to laboratories at Stout where they were analyzed for things such as the amount of sewer waste, algae counts, phosphate counts and water quality. Sources of pollution such as municipal sewers or runoff from agricultural facilities were also pinpointed.

At the same time a "vegetable cover survey" was conducted in the area to determine things such as erosion problems and fertilizer runoff.

The economic aspect of the project primarily involved the study of recreation facilities in the area. "Basically, we are trying to determine the supply and demand for recreation facilities," Burwell stated.

Another phase of the project involved a psychological study of people's attitudes toward the river. Interviews were conducted with residents along the shoreline on a three to five mile stretch of each river. Residents were asked questions regarding things such as soil erosion, pollution and the opening of their lands for access to the river. "We are trying to determine an attitude about use and misuse of the rivers by individuals in contact with them," Burwell said.

General observations were also scheduled via canoe trips along the river to study run-off areas, sewer drainage, feed-lot runoff, erosion and natural vegetation.

Burwell noted that as an added aspect of the overall project the group wanted to develop school curriculum which focuses on environmental problems and solutions.

Information collected in the study was scheduled to be turned over to the State Department of Natural Resources and will be available to other local and state government agencies as well as to civic groups and other interested parties.

Eight Stout students participated in the project under a stipend from the grant. In addition to Burwell, they are Bob Wessels, a senior from Sussex; Bill Lemsky, a junior from Marinette; Carol Valenta, a senior from Minneapolis; Debi Beebe, a senior from Green Bay; Clark Van Galder, a graduate student from Menomonie; Barney Klecker, a senior from Reedsburg; and Steve Miersch, a senior from Menomonie.

Other university students were involved in the project during the summer on a voluntary basis.

People You Know

Carol Dobrunz, assistant professor of Physical Education at Stout, has recently been elected president of Delta Psi Kappa, a national professional physical education fraternity for women.

* * * * *

Robert Schunk, director of Career Planning and Placement Services at Stout, has resigned his position to accept an appointment at the North Central Technical Institute at Wausau. A staff member at Stout for approximately five years, Schunk is now administrator of Student Services at the Institute. Replacing him is Robert Dahlke, formerly assistant Placement director. Named to Dahlke's previous position is Kenneth Erickson, assistant professor in industrial education at Stout, who began his new duties Aug. 14.

Harold Cooke, choir director at Stout, retired this spring at age 77. Cooke originally came to the campus in 1934 as the first full-time instructor for the university's band and chorus. He left the campus in 1945 to conduct the Rochester Symphony Orchestra and returned to Stout as choir director in 1963. A resident of Rochester, Minn., Cooke had been commuting to Stout two and one-half days a week.

* * * * *

Five members of the Stout faculty have been named "Outstanding Educators of America for 1972." They are M. James Bensen, William H. Owen, Lawrence Wright, Stanley A. Johnson and Garland W. Cooper.

* * * * *

The following people were installed as officers at the annual convention of the International Graphic Arts Education Association held at Southern State Uni-

versity, Statesboro, Ga., Aug. 13-18: president, Ervin A. Dennis, professor in the Department of Graphic Communications at Stout; president elect, Z. A. "Zeke" Prust '47; and 2nd vice-president, John T. Pagels '63.

* * * * *

The Chicago Chapter, Home Economics in Business section of the American Home Economics Association has four Stout graduates on the board and the regional advisor is from Stout. Louise Reseld Wakem '63, Kraft Foods-Consumer Service, is secretary; Sue Schmidt Morris '70, The Kraft Kitchens, is reservations chairwoman; Mary Ollrogge '66, The Milk Foundation, is in charge of career and educational information; Anne Rossmeier '66, National Tea Company, is in charge of special projects; and Karen Johnson BS '61, MS '62, The Pillsbury Company, is regional advisor.

Campus Notes

E. Robert Rudiger, chairman of the Department of Industrial Teacher Education at Stout, was elected chairman of the Wisconsin Advisory Council for Vocational Education at the Council's July meeting in Madison.

* * * * *

Federal grants expected to total more than \$1.5 million during the next five years have been awarded to the vocational rehabilitation program at Stout. Paul Hoffman, chairman of the Department of Rehabilitation and Manpower Services at the university, said that a major portion of the funding will be used to establish a national research and training center for vocational rehabilitation at Stout. He noted that the center will be used for both research and practical training in services offered to people in vocational rehabilitation. After initial development of the center, one of the grants will be used to expand the university's undergraduate program in vocational rehabilitation, particularly to reach minority groups.

* * * * *

Hector Cruz, former state wrestling champion at the high

school and college levels, has been named head wrestling coach at Stout. Cruz succeeds Sten Pierce who has assumed full-time responsibilities for the football program.

* * * * *

A \$9400 grant from the Packaging Education Foundation, Inc., has been awarded to Stout, according to Marv Kufahl, packaging coordinator at the university. Kufahl said the money will be used to develop curriculum in packaging.

* * * * *

An administrator to coordinate efforts on behalf of minority and disadvantaged students at Stout has been named by Acting Chancellor Ralph G. Iverson. He is Richard E. Anderson, dean of Admissions and Records at the university.

* * * * *

Jane Rosenthal, professor in the School of Home Economics and director of home economics education in the Graduate College at Stout, was recently named president of the Wisconsin Home Economics Association. She came to Stout in 1962.

* * * * *

Approximately 250 educators from Wisconsin and seven neighboring states attended the seventh annual Educational Media

and Technology Conference, July 24 through July 26 at Stout. Sponsored by the Learning Resources area at the university, the conference was designed to keep media specialists, librarians and audio-visual directors abreast of recent changes in educational media and technology. Keynote speakers at the meeting were Lee Sherman Dreyfus, chancellor of UW-Stevens Point; and Robert N. Hurst from the Department of Biological Science, Purdue University, Lafayette, Ind.

* * * * *

Degrees were awarded to some 300 persons Aug. 11 during summer commencement exercises at Stout. The ceremonies took place at 10 a.m. in the university's Health and Physical Education Center. Among the graduates were approximately 200 advance degree candidates.

* * * * *

By passing up a college education, students may be limiting their immediate opportunities as well as future career choices, according to Stout's Acting Chancellor Ralph G. Iverson. Speaking at an orientation session July 17 of new students at Stout, Iverson said a student's return on his investment in higher education occurs over a long span of time.

Class Notes

1910 - 1927

Mr. and Mrs. GEORGE W. SCHEFELKER '10 celebrated their 62nd wedding anniversary Aug. 24 in Stoughton.

Since retiring, UNA MAE KREBS HANSEN Dip. '20, BS '25 spends six months in Menomonie and six months in Scottsdale, Ariz. (the winter months in Arizona, of course).

STANLEY BEGUHN Dip. '21, BS '38, Naperville, Ill., retired in 1964 after teaching 43 years. However, he still continues to do substitute teaching.

Enjoying life and good health is SAMUEL L. BARONE Dip. '22 who resides in Clairton, Pa. He was a teacher for 46½ years before retiring.

FRANCIS E. JOAS Dip. '22, BS '30, Milwaukee, is retired after teaching 41 years.

Traveling extensively since retirement is JOSEPH M. KLAES Dip. '22, BS '33, who lives in Dayton, Ohio. However, he spends his summers at lake property in Rusk County, Wis.

After teaching for 43 years in Detroit, Mich., HENRY I. LIND Dip. '22 is now retired and lives in Louisville, Ky.

Enjoying retirement since June 1963 are ROBERT H. Dip. '22 and JULIA M. MELBY Mc CULLOUGH Dip. '22 of Menomonie. They both taught for many years in the Detroit public school system.

Having traveled around the world five times, EDWARD J. MOE Dip. '22, BS '24 is really enjoying retirement. He still finds time, however, to do volunteer service at a local hospital a couple days a week.

LOIS E. SHORE Dip. '22, Rockville, Ind., is retired after working 36 years for the U.S. Public Health Service.

Retired and living in Minneapolis is HARRIET S. WARMINGTON SWAN Dip. '22. She worked for the Veterans Administration as a dietitian for 42 years.

PAUL A. WELD Dip. '22, St. Paul, retired after spending 30 years in school administration in Hibbing, Minn.

Enjoying his sixth year of retirement is ELMER R. BORCHARDT Dip. '23, BS '31 of Charleston, W. Va. He had taught school for 14 years and was employed by the Dupont Company before retiring.

Now a resident of Lansing, Mich., HERBERT CIGARD Dip. '23, BS '37 retired in 1965 after devoting 42 years to the field of education.

A resident of Galesburg, Mich., STELLA TIMBERS BLESSINGTON '24 retired May 1 after 38 years as a dietitian.

A Lake Worth, Fla., resident, ALICE E. GUTZKE CASTOR Dip. '25 is now retired after 35 years as chief dietitian with the Veterans Administration.

After devoting 45 years to the field of education, ARTHUR P. CUMMINGS '25 retired in June of 1970. He and his wife reside in Cincinnati, Ohio.

A native of Norway, Mich., BLOS-

Clarence Herbert Larson (left), McKeesport, Pa., and Lt. Col. Barbara Rushing Brady, Washington, D.C., were the recipients of the Distinguished Alumni Award at summer commencement exercises Aug. 11th.

Larson, a 1923 graduate of Stout, retired after 42 years as a teacher, supervisor and administrator in McKeesport. Col. Brady, a 1956 graduate of Stout, is a nutrition consultant for the Office of the Surgeon General.

They are pictured here with Acting Chancellor Ralph G. Iverson.

SOM JOHNSON '27 retired as professor and acting chairman of the Department of Home Economics at Illinois State University, Normal. She had been there since 1945.

1930 - 1960

Since retiring in 1963, ARTHUR L. COLBURN BS '30, MS '41, Baltimore, Md., continues to do substitute teaching.

ESTELL H. CURRY '31, Wautoma, was employed by the Detroit Board of Education for 40 years before retiring in 1969.

Living on a nine acre farm in Loami, Ill., is STUART A. ANDERSON '35, professor of administration at Sangamon State University in Springfield.

SISTER MARY MARK BARBIAN, O.S.F., '40, Milwaukee, is an instructor of graphoanalysis in the Continuing Education program at Marquette University, Milwaukee.

BEATRICE A. WHITE BRENTON '42 is assistant professor in educational psychology at Western Michigan University, Kalamazoo.

The new director of college relations for St. Norbert College, De Pere, is JAMES D. BAILEY '48.

MARY SWANSON BOGENHAGEN '53, food service director for the Merrill public schools, has recently been installed as president of the Wisconsin School Food Service Association.

DAWN JOHNSON BS '58, MS '69, home economics teacher at Oshkosh High School, has been named "Outstanding Young Educator" for 1971 by the Oshkosh Jaycees.

A former La Crosse area resident, CALVIN E. JAMES '58 has been elected president of Yavapai Community College, Prescott, Ariz. He had been department chairman there since 1960.

BARBARA BOSCH '59 is chief dietitian at St. Vincent Hospital in Green Bay where she resides.

ANN MARIE NELSON BALTZ '60 teaches junior high home economics at West Salem where she resides with her husband and three children.

PETER A. FULCER '60, Sterling, Va., is supervisor of vocational and adult education at Loudoun County public schools.

LEOPOLD A. RICHARDS '60, Jamaica, West Indies, has recently received an Ed.M. degree from Stanford University, Stanford, Calif.

A staff member at UW-Stevens Point since 1969, DALLAS PANKOWSKI BS '60, MS '61 and his wife have authored two manuals for use primarily by students in fashion merchandising and art. The content of the texts covers art principles in clothing and basic textiles.

Recipient of the Cross Street PTA's Jenkins Memorial Award is KAY MC SWEENEY CROSS '60 of Williston

Park, N. Y. She was cited for her outstanding leadership and voluntary services among children's groups.

1961 - 1969

KIM J. BAUGRUD '61, University of Wisconsin-Extension coordinator at UW-Parkside, has been promoted to the rank of associate professor.

HENRY L. THOMAS BS '62, MS '63 recently received a Doctorate of Education degree from the University of Northern Colorado at Greeley. He is associate professor in the Materials and Processes Department at Stout.

CHARLES F. WROBEL '62 has been appointed manager for special needs (handicapped and disadvantaged) at Special Intermediate School District 916 in Roseville, Minn. His major goal will be to develop a comprehensive system of services for trainable mentally retarded children.

GERALD E. BAILEY '64, Babbitt, Minn., works in research and development at Reserve Mining Company, Silver Bay, Minn.

A new drafting instructor at Bayshore Middle School, Holmes Beach, Fla., is **A. GRANT BEER '65**.

PAUL PISANI BS '65, MS '66 is the new superintendent of the Osseo-Fairchild public school system. He and his family reside in Osseo.

YVONNE E. SCHWENGELS MURRAY '66, University of Wisconsin-Extension home economist for Juneau County, has been promoted to the rank of instructor with tenure.

A resident of Plainfield, Ill., **DWIGHT E. DAVIS '66** has been appointed executive dean for instruction at Joliet Junior College, Joliet, Ill.

KENNETH NIELSEN '67, a native of Racine, has been named dean of student affairs at Northland College, Ashland, where he and his family reside.

JAMES BILDERBACK '67 teaches woodworking and power mechanics at the new Oshkosh North High School where he and his family reside. He also is assistant basketball coach there.

MIKE DEMERATH '67 teaches industrial arts at Einstein Junior High School in Appleton where he resides with his wife and two children.

Assistant principal of the north campus of the United Township Board of Education in East Moline, Ill., is **WILLIE E. ELLIS, JR. '68**. He also resides in Moline.

DAVID J. '68 and **SHIRLEY FREDRICH BONOMO '67**, Carpentersville, Ill., are both high school instructors. They have two sons.

JOHN A. DIANA '68 teaches photography and graphic arts at Richfield Senior High School. Residents of Bloomington, Minn., he and his wife have two children.

JOHN GAWLIK '68, Cedarburg High School auto mechanics instructor, recently received an automotive Technicians Certification after being tested by the National Automotive Technicians Certification Board.

DARRELL SMITH '69 and **STEVEN KOWALSKY '69**, electronics instructors at District One Technical Institute at Eau Claire, will be working on a half-time basis over a three-year per-

iod at the Institute to implement a new instructional computer system.

1970 - 1972

2nd Lt. **JEROME E. JOHNSON '70**, New Richmond, has been awarded his silver wings at Webb AFB, Tex., upon graduation from the U.S. Air Force pilot training school.

KAY SONNTAG WILSON '70 and her husband, Paul, are the new owners of Door County's resort landmark, the Anderson Hotel, at Ephraim.

BILL PERLEBERG BS '70, MS '71, a member of Stout's Alumni Association Board of Directors and former teacher in the Minneapolis area, is now teaching industrial education at Jefferson County public schools in Denver.

2nd Lt. **GREGORY C. RYAN '70**, Valders, has been awarded silver wings upon graduation from U.S. Air Force navigator training at Mather AFB, Calif. He is now assigned to Ellsworth AFB, S.D., to serve with a unit of the Strategic Air Command.

Army Sp5 **WILLIAM J. HANLEY '70**, Sun Prairie, recently attended a two-week seminar in Giessen, Germany, for those in leadership positions. He was the top honor student at the seminar.

CAROLE J. KADINGER SUNDBERG '71, formerly of Menomonie, has been named home economist for the Colorado wheat administrative committee. The marketing organization for the state's 21,000 wheat producers is located in Denver.

LARRY SCHNEIDER '71, industrial technology teacher and former New Holstein resident, has been promoted to instructor at Lake Superior State College, Sault Sainte Marie, Mich.

TONY KAWOTJO '71 is employed by the Ford Motor Company in Melbourne, Australia. He will be a trainee in their plant and manufacturing engineering departments for a year.

CATHERINE L. HIEMENZ '71, Wauwatosa, was recently graduated from Perth Amboy General Hospital, N. J., where she completed the dietetic internship program.

Recently graduating from the U.S. Air Force telecommunications control specialist course at Keesler AFB, Miss., is **JAMES W. BEHRLE '71** of St. Charles, Ill. He is now assigned to Chicksands RAF Station, England.

BRUCE H. HILTON '71 Kingston, N. Y., has been commissioned a 2nd Lt., in the U.S. Air Force upon graduation from OTS at Lackland AFB, Tex.

Pvt. **ROGER W. JOHNSON '71**, Stratford, recently completed eight weeks of advanced individual training at the U.S. Army Armor Center, Ft. Knox, Ky.

ROGER JOHNSON '71, Genoa, has been appointed a career agent for the Rural Insurance Company with headquarters in Viroqua.

2nd Lt. **DONNA L. LITTLE '71** recently completed nine months of dietetic internship at Brooke General Hospital, Brooke Army Medical Center, Ft. Sam Houston, Tex.

WINSTON B. GORDON '72, Racine, is among the 60 minority students from throughout the nation to receive a fellowship in a program designed to prepare minority students for careers in business management. He is attending UW-Madison.

PETER RETZLAFF, JR. '72, a rehabilitation major, is employed by the Veteran's Hospital in Tomah.

MAUREEN A. RUSSELL '72 is the new art instructor at Shattuck School, Fairbault, Minn.

Deaths

THOMAS A. HIPPAKA '16, 76, April, in LaMese, Calif. He had spent 50 years in education. Survived by his wife, Helen, and a son.

GERTRUDE LEYSE TAUGHER '18, 73, in July. She was a retired home economics teacher. Survived by four sisters.

BYRNE FLETCHER '22, Apr. 3, in Junction City, Kan.

BENJAMIN F. CARSON '25, Fairfax, Minn., Apr. 4. He had taught school for many years.

MABEL L. SANDVIG '29, Feb. 7, in Columbus, Ohio. She served 34 years as a dietitian with the Veterans Administration. Survived by four brothers.

CHARLES R. STRONG '30, 67, June 30, at his home in Menomonie. He was a vocational high school instructor in Detroit for 33 years. He is survived by his widow, Clara, and three brothers.

EDWIN M. REED '31, June 8, while at work in Kingsport, Tenn. He had been employed by the Tennessee Eastman Company since 1943 and was a school board official. Survived by his wife, Margaret, and a son.

CLARENCE A. ARNTSON '37, 56, Apr. 25, of a heart attack in Atlanta, Ga. He headed Southern Tech's mechanical engineering department for 20 years and also done some coaching there. Survived by his widow, Lois, who resides in Doraville, Ga.

ROBERT F. SCHULTZ '40, July 6, in Menomonie.

SHARON HUTJENS VAN DYCK '66, 27, De Pere, May 18, in a Green Bay hospital after a long illness. She taught home economics at Brillion for two years. Survived by her husband, Paul.

A former Bakersfield, Calif., resident, **OWEN F. GOODMAN, JR. '72, 29**, was killed June 10 in an automobile accident near Menomonie. He had just received his degree and planned on taking a teaching position in the Twin Cities area. A \$5,000 loan and scholarship fund has been established in the Stout Foundation in his honor by his parents, Mr. and Mrs. Owen Goodman, Sr.

The Stout Alumnus

The Stout Alumnus is an official publication of University of Wisconsin-Stout. It is published quarterly and entered at the post office in Menomonie, Wis., as third class matter.

Sports

Two years ago the Stout Blue Devils began their climb to become an upper division team in the Wisconsin State University football conference.

"We will be terribly disappointed if we don't do it this year," said Head Coach Sten Pierce. Last year the Blue Devils finished sixth in the conference; the year before that, two spots lower.

There has been steady improvement of the Blue Devils under Pierce, the youngest coach in the conference. In 1970, the team was 3-7 overall, and last year 5-5.

With 26 returning lettermen, including 15 seniors, Pierce's outlook is brighter. Only seven seniors were lost off last year's squad through graduation.

The offense will be engineered by senior quarterback Steve Fedie and executed by hard running Ron Berg, potential all-conference center Steve Novotny, and the finest receiver in the league John Debee.

Defensive football will be spearheaded by Rick "Huck" Henneberry, hard nosed Jim Hittman, the best middle guard in the league Mike Wettstein, tackles Roger Berg and Ernie Pin, and safeties Steve Olbert and Erick Bloohm.

The specialty units will be led by Ken House, Bill Hartung,

Mike Greely, Jeff McNeely, Jim Piller and Ken Carmody.

"Last year's running game and total team defense lacked most everything," Pierce said. The passing attack and specialty team performance was adequate.

"We threw too much and gave up too many points last year. This will be corrected this year no matter what the costs."

The Blue Devils return home to Nelson Field this year after a one year absence. The field was closed last year for extensive remodeling which included new sodding, drainage system, stands, scoreboard and practice field, besides the addition of an all-weather track and baseball field.

Football fans returning to the campus this fall will be greeted by a new scoreboard at Nelson Field. The scoreboard is part of a revamping project which took place this past year. Included in the structure is a version of the "Blue Devil" which is pictured on the front cover of the *Alumnus*.

Football Schedule
